

MoKMaSD 2013

2nd International Symposium on Modelling and Knowledge Management for Sustainable Development

Tuesday , 24 September

09:50

Opening Words

10:00

10:00

Paloma Cáceres García de Marina.

11:00 *A Transport Sharing Platform to Improve the Sustainability*

11:00

Coffee Break

11:30

11:30

Session 1

13:00

- Martin Kloos, Joris Hulstijn, Mamadou Seck and Marijn Janssen
XBRL-driven Business Process Improvement: A Simulation Study in the Accounting Domain
- Alain Perez, Felix Larrinaga and Edward Curry
The Role of Linked Data and Semantic-Technologies for Sustainability Idea Management
- Suryana Setiawan and Antonio Cerone
Stochastic Modelling of Seasonal Migration using Rewriting Systems with Spatiality

13:00

Lunch

14:30

14:30

Session 2

16:00

- Roberto Barbuti, Pasquale Bove, Andrea Maggiolo Schettini, Paolo Milazzo and Giovanni Pardini
A Computational Formal Model of the Invasiveness of Eastern Species in European Water Frog Populations
- Anna Philippou and Mauricio Toro
Process Ordering in a Process Calculus for Spatially-Explicit Ecological Models
- Pierluigi Penna, Nicola Paoletti, Giuseppe Scarcella, Luca Tesei, Mauro Marini and Emanuela Merelli
DISPAS: an Agent-based Tool for the Management of Fishing Effort

16:00

Coffee Break

16:30

16:30

Discussion.

17:30

Open informal discussion on past, present and future of MoKMaSD
